Mohamed Khater

I am looking for an internship to apply what I have learned.

○ Projects

• Processor scheduler 2023

I made this project using data structure, I made a scheduler to control a system of processors.

• AES encryption/ decryption using FPGA 2023

I learned Verilog, besides Modelsim to do this project.

• PrintForKids using OOP 2022

It is a drawing game for kids, I do it using C++, OOP concepts.

• Smart irrigation system 2022

Using Arduino Uno, I made this project to save water in irrigation.

• Electric car 2022

I was a partner of IEEE, I used Arduino Uno to make a robot car.

○ Courses

- OOP
- Data structure
- Algorithms
- HTML
- CSS
- java script
- bootstrap
- PHP
- SQL
- react.js
- node.js
- mongoDB
- python
- verilog
- CS50
- Control version such Git/GitHub

○ Soft skills

- problem solving
- presentation skills
- oral and written communication in English
